I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Julie McNally

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Rachael Pappano

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country. This undoubtedly is only the first of many attempts to push unnecessary nationwide voting restrictions.

I'm encouraged that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter CAN vote and have their vote counted as cast -- not by using totally false claims about illegal voting to suppress votes. While it is possible that names of deceased individuals remain on voting rolls, that does NOT mean that anyone voted in their stead.

Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans. Using voting machinery that allows verification of voting accuracy is long overdue, since it will enable the votes to see his or her vote registered accurately AND facilitate a recount in the event of challenges.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising their Constitutionally-protected freedom and right to vote.

Sincerely,

Tim Slack

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

John Chong

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Gary Miller

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Steve Rosin

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Susan Wigfield

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

It is truly rich when an illegitimate regime tries to investigate the voters who didn't elect them. False claims about illegal voting are a pretext for a partisan attack intended to suppress votes. The American people will not be intimidated out of exercising our freedom to vote.

Modernize our elections: institute automatic voter registration, Election Day voter registration, and early voting. These are all important steps to lowering the barriers to participation for all Americans.

This Commission will not intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Rob Turner

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Linda Aloia

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I believe that the Pence-Kobach commission's recent request for private information about every voter in the country is an attempt to push nationwide voting restrictions which will effectively suppress the rights of legitimate voters.

I'm glad that state election officials have put their duty to voters above this partisan attack on our Constitutional rights, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Michael Krane

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

The information we, as voting citizens need, is Trump's tax returns. Talk about millions of illegal votes is fake news. I think we now actually have a fake President, who thinks he's on a reality show that is called Make American Great again and all he is doing is turning away our allies. The G20 is now the G19, SAD.

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Laura Newman

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

john farina

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

L Glasner

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Carol Ditzel

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Dorothy Friedlander

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

In addition, all states should have funding to upgrade their voting machines and to assure that every vote is recorded and that there is also a paper ballot for every vote that matches the tallies in the machine. No state should be using computers to record votes and the internet should not be used to vote.

Stop your efforts to suppress the vote with laws that make it difficult for people to vote and stop closing voting places and stop closing places like the Motor Vehicle Bureau where people were registering to vote and stop purging the voter records.

Your efforts to purge voter records and to collect voter info is viewed as a means to suppress the vote

**Our DECENTRALIZED VOTING SYSTEM IS WORKING AND IS KEEPING OUR VOTING SAFER - KEEP IT AND GIVE STATES FUNDS TO EXPAND VOTING**

**ALSO - FULLY FUND THE ELECTIONS ASSISTANCE COMMITTEE WITH \$4 MILLION.**

**AND STOP THIS COMMITTEE HEADED BY KOBACH WHO HAS A LONG LONG HISTORY OF VOTER SUPPRESSION.**

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it.

I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Paula Bacolini

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I believe that the Pence-Kobach commission's recent request for private information about every voter in the country is a grand waste of my tax money to try to prove a negative....the conspiracy theory that every state is so inept that they can't identify voter fraud by themselves. I would think this insult would so piss off the state, that alone, would keep them from aiding and abetting the president's witch hunt

The best way to ensure the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Also states must stop using Voter ID laws, that discriminate against the elderly, poor and those of color to negate votes cast by making them "provisional" ....a fancy way to tell fools you will throw out their vote.

We must modernize our election systems to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans. Vote-by-mail and online voting, in addition to in-person voting, should all be options to make voting easier for all citizens. Not everyone has their own vehicle for travel, nor can many afford the time off work, to be able to participate in voting. That must change. We have an embarrassing participation rate in the US compared to many other countries.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any of my neighbors from voting. I will continue to go door-to-door during the voting period to drive neighbors to the polls, regardless of political affiliation. It is not my place to say who they should vote for, only that they should exercise their right, and duty, to vote.

If this commission wants to do something to Make America Great Again.....which I'm sure you do.....their priority should be working with the states to open voting options to bring more, many more, voters into the election process. Additionally, there needs to be action to ensure the security of registration files and vote tallies from any and all outside interference. These actions would be money well spent.

The GOP can't have it both ways - you either believe in states rights,

or you don't. Control of voting is the pervue of the states, and for security reasons, should stay that way.

Sincerely,

Carla Kayser

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

J. Schmit

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Howard Prince

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

After reading the report that people are already withdrawing their voter registrations because they don't want to give you their personal info, it would seem you are already winning at destroying our democracy with your voter fraud lie. We fill fight to protect our democracy from your power play!

Why do you think they draw the screen at the voting booth? That is our private decision, not for sharing to the world! Our system has already been hacked by the Russian government so why aren't you concentrating your efforts to fighting that problem? We are not fools and see that it helped you so you choose to ignore it. You are putting your own selfish interests and ego above protecting our country.

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Mary Argento

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Penny Manion

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Margaret Glass

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Robert Frey

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Priscilla Meyer

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Todd Waymon

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

David Kendall

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Monica Steensma

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Carlos Barradas

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Jarryd Audette

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Luci Howard

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Joseph Falkenstein

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Donna Bodinson

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions. No respectable or responsible source has claimed any significant irregularities. Previous attempts to disenfranchise legitimate voters have been shown to have an extremely high rate of irregularities, disenfranchising those who obviously should not have been disenfranchised. Seeking more of the same is a waste of taxpayer money, as well as destructive to a democratic society.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Mary Mccarthy

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Karen Walker

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Melissa VerDuin

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Martha Burbeck

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

William Sharfman

10024-6508

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Charlene Russert

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Wendy Schuman

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Lane Dewan

Dear Presidential Advisory Commission on Election Integrity,

As someone who has voted in every election for which he's been eligible, I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Al Bonowitz

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Michael Brooke

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Jane Renninger

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Lenore Lee

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Stewart Lindenberger

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Janet Rutledge

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country. My private information is just that and I never intended for that info to be public record or be collected by a Republican (or Democrat) administration. This is just wrong and unnecessary. The federal government's role should be to protect and widen voter access, not suppress and limit it.

As an Indiana resident in a heavily gerrymandered state with strict voter ID laws and the earliest poll closure hours in the country, I am sadly used to the attempts at voter suppression. The evidence at voter fraud is minimal (yet the most notable election fraud case in Indiana was the elected Secretary of State which paved the way for Connie Lawson's position. Now that is ironic).

This seems yet another attempt to limit voter access. I am glad that to date, state election officials have put their duty to voters above this partisan attack on voters. I will not be intimidated out of exercising the freedom to vote.

We, the American people, do want to uphold fair the integrity of our elections. That begins by acknowledging Russian interference in our past election, developing protections so that it does not happen again, and ensuring every eligible voter can vote and have their vote counted as cast.

Demanding information not intended to be public and making false claims about illegal voting to suppress votes is wrong. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy. We see through your purported purpose of election integrity so protect it, don't suppress it.

Sincerely,

Julia Boodt

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Steven Boyce

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Audrey Lazarus

Jul 9, 2017

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

The Vice President is already well aware of this, but thanks to our SecureID law, gathering information regarding every voter in Indiana would provide you with facts about a small and shrinking portion of Hoosiers who ought to be able to vote and to have our votes count. When my parents married, my paternal grandfather gave the young couple the house my father was born in. When I absent-mindedly allowed my driver's license to expire, I was told that though I lacked virtually all of the documents required by the SecureID law, my father could vouch for me, provided HE could provide enough of the pertinent documents from each of the multiple requisite categories. He was eighty-one years old at the time, had lived in the same house all but two of those years (two years' service in the U.S. Army), had recruited poll workers for our precinct for over fifty years (every election), and HE was ONE document away from not being able to prove HIS residency sufficiently to receive a SecureID.

The judge who originally ruled our state law constitutional has since said that the ONLY purpose served by it and laws like it is suppressing LEGITIMATE votes from being cast and counted...and now you expect people to believe the mass violation of privacy you're proposing is intended to PRESERVE the integrity of the vote, rather than further destroy it? To the citizens of any state with a voter ID law, it's an insult to our intelligence.

Sincerely,

Kevin McCollough

In addition, much of the information you are seeking may be covered under the confidentiality laws which restrict the sharing of personal information.

For this reason, I feel you should drop this request and instead focus on an outdated election system which uses easily hacked voter machines and encourage the use of trackable paper ballots.

Sincerely,

R. Moxom

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm extremely glad that state election officials have put their duty to voters above this dangerous, partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow helpful, inclusive things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans to exercise their right.

The freedom to vote is the primary cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to vigilantly protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Timothy Ackley

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Anthony Bruno

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Lorrie Stillings

95472-4523

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Karen Hostetler

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

As a citizen who votes in every election, I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions. The problem in this country isn't voter fraud, it's vote suppression efforts specifically by Republicans in a panic about changing demographics.

I'm glad that state election officials of both major parties have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes (stemming from our insecure, narcissistic "leader" who is only obsessed with suppressing the fact that he didn't win the majority of votes). Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all eligible Americans. Our voter turnout rate is pitiful in comparison to supposedly less democratic nations; we should be encouraging voters, not making it harder for them to register and vote.

The freedom to vote is the cornerstone of our democracy, and know that We The People will do whatever it takes, together, to protect it. We will not let this Commission intimidate any eligible American from exercising the freedom to vote.

Sincerely,

Marianne Follingstad

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

The Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters. I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

Upholding the integrity of our elections requires ensuring that every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Mai Lopez

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Kay Musser

Jul 9, 2017

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

This commission appears intended to extend the work of the Interstate Crosscheck program, which has been proven to have disenfranchised millions of people who were in fact eligible to vote. While many people are in fact registered to vote in more than one state, that is not a crime. Historically, actions taken to reduce fraudulent and duplicate registrations have mostly harmed legitimate voters. For example, the Florida felon purge in 2000 and the Interstate Crosscheck program have unfairly disenfranchised many, far more than the legitimate removals they accomplished. No backroom purges should take place.

Voting an election in multiple locations is a crime, and that may be worth pursuing so long as prosecution is carried out through the U.S. legal system. However, there have been many investigations of voter fraud, and these have resulted in only de minimus proven cases.

If fraudulent voting truly is a concern, a national ID system should be considered, paired with an automatic voter registration having a reasonable grievance processing system. That tends to be the practice in countries that have better voting systems than the U.S.

To make America great we need more people voting. Asking states to provide lists of people they have removed from voting lists and checking the validity of those removals would be worthwhile.

Sincerely,

Michael Labonte

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Bill SANDEFUR

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

Indeed, I am deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions. I could not state my own feelings better so I will let this stand.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Who died and let this commission, indeed all the conservative lunatics supporting it, take over our well-functioning Democracy. . Like fascists, you would deny civil rights to Blacks, Muslims, Mexicans, American Indians and all immigrants. Eventually, you would take on Jews, as all right wing groups do. All of these "distasteful" people are the bedrock of our Democracy. They are the people who made the United States of America great. Under the auspices of this lunatic administration, we are becoming a third rate country, a "banana republic".

Where did your ancestors come from? Why should you be able to vote but a citizen who has probably been here longer than you but is not lily white be denied this vital right.

Let's save our Democracy, not become a colony of Russia.

Sincerely,

Rosalie Cohen

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

Please be aware that I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote. It is the most precious freedom that we Americans have!

Sincerely,

Gay Danna

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I am scared of your entire administration - you are destroying the values on which our country is based. It terrifies me that your emotionally based tweets reveal that you're absolutely bonkers. I am horrified by the new action by the Pence-Kobach team & think that, instead, we should focus on getting rid of the electoral college which is a ridiculous anachronism today. We want one man or woman, one vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Mary Duffy

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Eva Loeb

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Leslie Kowalczyk

95370-8618

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

S Alice Jones

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Kristin Eliasberg

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Tim Barrington

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Chris Rosenthal

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

What a collection of anti-American garbage. I'm 81, educated, a retired teacher of close to 50 years, a volunteer for 20 years, awake and informed. If it takes the last breathe in me to denounce your insanity, ignorance and arrogance I will. Your behaviors are not only a waste of time, energy, resources, and good will they are treasonous and drip of hatred for this country. I WILL vote and right now I vote to have all of you removed, arrested for treason and prosecuted as TRAITORS.

Sincerely,

Dorothy Anderson

Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

Further, the ridiculous gerrymandering and voter suppression needs to stop. You are removing the voice of the people for your own personal gain. It is the opposite of democracy to take away the needs and wants of the people and insert your own personal desires. It is a gross misuse of the power you were elected to and we the people deserve better.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

June Didier

Jul 9, 2017

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm writing to express my concern about the Pence-Kobach commission's alarming and grossly inappropriate recent request for confidential information about voters in my state (Vermont) and every other state as well. In context it appears to be a step towards legitimizing widespread voter suppression measures. I'm thankful that Sec. Condos has refused to provide any information other than that which by the laws of Vermont is already public information.

If the Trump administration (or the GOP-dominated Congress) is concerned about the legitimacy of US elections the best way to address it would be by ensuring that all eligible voters have equal opportunity to vote and not unlawfully purged from the rolls or forced to endure inordinately long waits at dwindling polling places. Early voting, Election Day voter registration and automatic voter registration are simple measures that could help protect the franchise. And return to more reliable, un-hackable paper ballots for voting would make voting results less uncertain.

In any case, I intend to continue to exercise the franchise regardless of this administration's specious assertions about widespread voter fraud and regardless of any efforts at voter intimidation.

Sincerely,

Laura Ziegler

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Paul Drummond

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Daniel Belletieri

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Gary Bates

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

WALTER REES

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Marcia Leibson

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Laurien Jones

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Henry Hamel

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Linda Dunal

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Justin Madia

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Yvonne Yvette

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Dorothy Schettek

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Stephen Evola
