

What Demographic Variable had Largest Range in Participating/Not Participating in Electoral Process?

Census Bureau's bi-annual voting studies back to 1964
Whether people Registered or Voted

~~Age~~

~~Race~~

~~Income~~

Home Ownership

Do you own your home/shelter?

Or do you rent?

Are you invested in your community?

I Believe it's important to study all data

To know their pluses & minuses

To be aware of its idiosyncrasies & nuances

To seek clarification when data doesn't appear correct

To understand their relationships

To view their variation over geography & time

To be cognizance of people's "spin" on the data.

Let the data tell the story

After all, data is our middle name

Thank you
