I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Cheryl Laos

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Richard Sidy

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

We should require voting (even if just an abstain) like Australia -- this would ensure all legal voters have their voice heard.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Chad Martin

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Marilyn Fealk

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

Florida's election officials answer to you was that they would send some information; but not all and I am very angry because this commission is a farce, predicated on false information.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions, but more importantly the Democratic National Committee, many State Election Database', and the Federal Government systems have been breached. Putting all that data in one place is just asking Russia, China, and every Identity Thief on the Planet to try and hack it. Don't do it.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Vito Degrigoli

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Joseph Kaleel

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Carlos Villalvazo

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Linda Hansma

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Tadeusz Morys

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions. It appears to be an excuse to intimidate the voting public, standing on a ruse of ferreting out voter fraud. Eliminating voter fraud is the job of the states, not the federal government.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote. There are reasons why the states are in charge of running elections, and not the federal government - to protect its citizens from voter fraud, and from anyone in the federal government trying to make the running of elections a partisan affair or abridge the rights of any voter or group of voters.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Annemarie Helm

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

The Pence-Kobach commission's recent request for private information about every voter in the country is a thinly disguised attempt to create new nation-wide voting restrictions.

The American people will not be intimidated. We will continue to exercise our freedom to vote.

I want to see policies that guarantee that every eligible voter can vote and have their vote counted as cast. Donald Trump's claims about illegal voting are false. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, use of paper ballots instead of machines that can be hacked, and early voting are important steps our nation should take to lower the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned about the Pence-Kobach commission's recent request for private information...it harkens to the actions of a sham, rather than a true, democracy! Russia has one of these: falsifying votes, suppressing voters, and intimidating its people. If we cross that tender line between freedom and fake appearances of freedom, we will not be the country we were supposed to be...we will be Russia 2.0, made in their image by those beholden to them.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Thank you for doing all that you can to guard against the erosion of the two most powerful mechanisms of democracy: voting by the people for the people and free speech!

Sincerely,

kyra bobinet

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

The Pence-Kobach Presidential Advisory Commission on Election Integrity is as dangerous to America as cancer is to the human body. And, therefore, it is my prayer that millions of Americans will do everything possible to help the body politic of our country to reject it....JUST AS THEY WOULD A LIFE-THREATENING CANCER.

Said differently, the Pence-Kobach Commission is NOT about removing voter fraud. It is itself a form of fraud of the highest order. It's a devious and corrupt effort to SUFFOCATE DEMOCRACY.

Specifically, it seeks to weaken American democracy by preparing more state-by-state programs to make it increasing difficult - through devious means such as gerrymandering or limiting voting access - for disadvantaged or marginalized groups to exercise their legal rights.

I understand the the Commission will post some of the comments it receives regarding is planned work. Among those, I hope it will post many from dissenters.

Sincerely,

Samuel Smith

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Shannon Littrell

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

David Lawson

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions. Voting is a right of all citizens and attempts to suppress it by a known opponent of voting rights who has lost four times in court are unamerican and a profound direlection of the governments duty to preserve constitutional rights.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote. If you must suppress the vote to win elections, you did not win fairly and do not deserve to be in power.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote. I resent that this even has to be stated.

Sincerely,

Kiele Goins

This commission is a farce! Kobach's goal is voter suppression, not investigation of voter ID fraud, which we already know from multiple studies is nearly non-existent.

This commission is a ridiculous waste of time, effort and, most important, TAXPAYER DOLLARS.

Let's put a stop to this nonsense.

Sincerely,

Roger Lewis

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

John Venter

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm alarmed that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions. Since Trump believes without evidence that illegal voting occurred in 2016 and that's the reason he lost the popular vote, he will do whatever he can to restrict voting to his supporters and Republicans.

If you pursue Trump's vendetta against Democrats, minorities, immigrants, non-Christians and women, it will damage our democracy. Instead, you should be exploring ways to expand voting in America so that other states have a 70% plus voter participation like Colorado does. That should be the goal of your Commission.

Modernizing our elections to allow automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans. Colorado is a good model to look at.

It is unAmerican to restrict voter participation. Instead, expand voter participation. Do the right thing!

Sincerely,

Dian Callaghan

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I am writing to let you know of my concern about the Pence Kobach commission's request for private information about every voter in the country. To me, this is an attempt to enable nationwide voting restrictions. I would prefer that you make sure every eligible voter can vote. I believe claims of illegal voting are false and instead are intended to suppress votes. A better way would be to do something to assure voting fraud does not exist by providing automatic voter registration and machine monitoring to ensure duplicate votes are not cast.

I served in the United States Air Force for 20 years to protect our country's freedom. I continue by joining millions of voters working together to protect our voting freedom. We will do everything necessary to protect this freedom. by opposing any interference with our voting. things like automatic voter registration, Election Day voter registration and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Robert Schoenecker, Lt. Col., USAF, Ret

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Kris Moore

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

John Bertaina

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm VERY concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

IT is REASSURING that state election officials have put their duty to voters above this partisan attack on voters; the American people will NOT BE intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes.

Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The FREEDOM TO VOTE is the cornerstone of our democracy; I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Jan Summers

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Haven Knight

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Nicholas Tisdale

Jul 9, 2017

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

Let me first state that there is no widespread voter fraud being committed in this country. The Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I am confident that our state and local voter commissions will remain vigilant and continue to maintain the integrity of our voting process. The job of the Trump administration should be to strenuously investigate any attempts to compromise the voting process by external players and discount Trump's and his supporters' mistakenly perceived voter fraud claims. From day one, the Trump administration's misplaced paranoia has done more to deconstruct America's long valued institutions rather than reinvigorate them.

Sincerely,

Michael Grooms

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

John Costello

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Peter B

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

The Pence-Kobach 'voting irregularity commission' is phony on the face of it. Out of the tens of millions of registered American voters, it has been documented by multiple Secretaries of State (both D and R) that there is a vanishingly infinitesimal number of "illegal" votes...and that tiny number is comprised of about equal numbers of Democratic votes as Republican. The declaration of 'millions of illegal votes' in the 2016 election is trumped up nonsense (pun absolutely intended!)

Sure, any few people voting illegally should be caught; but for this ridiculous commission to request this massive amount and INTRUSIVE depth of data is both unnecessary and unprecedented. Let the states act to monitor their own voter rolls - but require them to do so equilaterally and in an unprejudiced manner.

Speaking of which, the directive sent by the DOJ on the very same day as the letter from Pence's hastily assembled and poorly organized 'commission' is simply a backdoor method to accomplish the same goal: to disenfranchise untold millions of Americans who, for one reason or another, may show duplicate voter registrations. The reasons could be that they have moved, changed names, party affiliation and so on...or simply decided not to vote in one or another election. NONE of those reasons is illegal OR actionable as cause to remove anyone from the registration rolls.

It is especially notable that the DOJ directive seeks ZERO information from the states regarding programs and processes designed to ASSIST people to vote, to make it EASIER rather than more DIFFICULT to get to the polls and to cast their valid vote. Instead the directive seeks only information focused on how to remove the Constitutionally-protected franchise from ... dare I say the truth? ... likely Democratic voters.

This commission is garbage and borders on a dictator-state maneuver. I - and millions of other Americans - demand that you cease this unrelenting search for 'phantom illegal voters' as if nothing more than an exponentially higher level attempt at voter suppression.

Sincerely,

Tim Slack

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Maxine Hayes

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Russell Lichter

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Michael Daveiga

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

There's absolutely no excuse for some of the information that the 'Commission on Election Integrity' is asking for. Birthdate? AND last 4 of social security number?? Boy, could I make off with bank accounts, emails and the like with that info!

And proven 'voter fraud' is such a rare occurrence that it hardly deserves a Federal Commission. Let the states, which have the necessary information about their voters, deal with such infrequent actions.

If anything needs investigating about the integrity of the last election, it is the data breaches and attempted hacks into the various Parties' servers and election sites. There's where the real fraud can take place. And especially, there should be very serious investigation into possible collusion of ANYONE of either political party with such data hacking.

Especially, those tens of millions of us who are legal, registered voters do not wish to learn suddenly, at the last minute, that our name has been ILLEGALLY removed from registration rolls due to coincidence of names, birth dates, etc. The freedom to vote is the cornerstone of our democracy, and I know that we will do whatever it takes, together, to protect it. I will certainly not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

J. E. Wanner

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

leslie steinwachs

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Lisa Beverly

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

I am personally outraged at this brazen, blatant, egregious effort on the part of Trump and his toadies to endanger our voting system by compiling a centralized list of private voter information, thereby enabling these authoritarians to threaten and intimidate certain groups of voters. Shame on you!

Sincerely,

Robin Sible

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Kathleen Miller

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

JOHN ALLEN

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm disturbed that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions. Even ignoring the possible misuse and cherry-picked findings in the data collected, spending public funds in pursuit of a universally-recognized baseless assertion about the election is a travesty. I hoped I'd never have cause to say it, but our current president is a pathological liar. He sets a terrible example for our youth. Let us not abet endorsing this lie.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Mark Heffron

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Deirdre Smith

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Kathy Bradley

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Fred Mcguire

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

John Golding

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Virginia Reck

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Leonore Johnson

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

During early voting last October and November and on Election Day, November 8, 2016, I served as a poll watcher for the Democrats in Durham County, North Carolina. Our Board of Elections was controlled by Republicans. I was very impressed by the nonpartisan and professional way they conducted the election. They were very careful to make sure that everyone who asked for a ballot was a registered voter in Durham. As my husband had passed away in June, 2016, I asked an elections official to check to see if he was still on the voting rolls. His name was still on the list. But I can assure you that no one voted in his name. Perhaps our elections officials need a better system to identify those voters who have died, and get their names off the list, but the fact that a deceased person's name is still on the rolls does not indicate any fraud.

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Katherine Slawinski

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I did not write the message below. However, I endorse fully its substance. There is an irony implicit in the creation of a commission on "Election Integrity" by the occupants of the White House because electoral integrity of citizen voters is the least problematic problem troubling this democracy at present.

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Kenneth Hendrick

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

The Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions. It's a deeply concerning development.

State election officials have put their duty to voters above this partisan attack on voters. The American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is to make sure every eligible voter can vote and have his or her vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy. We The People will do whatever it takes, together, to protect it. This Commission will not intimidate me nor any other eligible American from exercising the freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Arthur Krakowsky

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Elizabeth Elder

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions. And that only registered republicans will be allowed to vote.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote. All registered voter citizens deserve the opportunity to vote, not just Republicans.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all American Citizens.

The freedom to vote is the cornerstone of our Republic, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American, regardless of party affiliation, from exercising the freedom to vote.

Sincerely,

Angela Green

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Barbara Rose

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Margaret Renn

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Michael Allen

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Mary Bissell

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Jeff Lerner

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

Good morning.

This is to say that I object to the Pence-Kobach commission's recent request for private information about every voter in the country. Voting is a private matter between the citizen and his conscience, and frankly, none of your business.

I'm pleased that several state election officials have put their duty to voters above this intrusion upon voters, and I want you to know that most people will not be intimidated out of exercising their freedom to vote.

In my opinion, a better way to uphold the integrity of our elections is to make sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I, for one, will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Stephen Snell

Jul 9, 2017

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

To the Presidential Advisory Commission on Election Integrity:

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions. I am concerned that the very existence of the commission is the result of a partisan strategy to suppress the vote, based on unfounded claims of widespread voter fraud, such as President Trump's false allegation about thousands of people being bused from Massachusetts to vote illegally in New Hampshire.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast. The anecdotes of exceptionally rare cases of fraud and reports of deceased people whose names have not yet been removed from registration lists are a cynical effort to mislead people. I believe the ultimate intention is to suppress votes, not uphold the integrity of elections. If the commission was truly concerned about the integrity of elections its efforts would better be directed at trying to prevent interference by foreign powers or developing proposals to modernize our elections to lower the barriers to participation for all Americans.

Using the excuse of preventing "widespread voter fraud," which serious investigations agree simply does not exist, the powers that be have already raised, and I feel are poised to raise even greater barriers to voting for wide segments of our population in order to help maintain their own power. The freedom to vote is the cornerstone of our democracy. Those who try to prevent eligible voters from participating in democracy are anti-democratic cowards.

Sincerely,

Calvin Dexter
Wausau, WI

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Steve Wozenski

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I grew up in Wisconsin and heard how elderly and patriotic citizens in my former community who had always voted were denied the right to cast a ballot, since they had no access to their birth certificates. And why is there a request for private information about every voter in the country?

You may not think that someone in my ZIP code loves this country as much as you do. But I am grateful every day that I live in the USA, and that includes participating in the right to vote. I'm glad that state election officials -

Republicans and Democrats - have put their duty to voters above this partisan attack on voters. The American people have the right to vote in elections at every level of government.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy. I will not sit back and allow any group or government to take away my right to casting a ballot as I see fit.

Sincerely,

Ellen Khalifa

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Cheryl Anderson

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

james trenary

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I am disgusted with the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

Fortunately, state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

Your outrageous lies about millions of illegal votes in the past election, which you know damn well to be complete fiction speaks volumes about the lack of integrity or indeed any decency in this administration. Your attempts to suppress votes will not be tolerated by the American people. Enough of us see through the smoke and mirrors to see that this administration's end goal is nothing less than to establish a dictatorship. And any Republican who aids in this effort will feel the full wrath of The People in the mid-term elections.

The freedom to vote is the cornerstone of our democracy, and I'll be damned if I will allow this sacred right to be stripped away. We The People will do whatever it takes, together, to protect it. I will not let this Commission, nor anyone else in this debased administration, intimidate me or any other eligible American from exercising the freedom to vote.

With utmost disgust,
Michael Tennaro

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

The Pence-Kobach commission is a bogus partisan witch hunt and I'm deeply concerned that it's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Armand LeGardeur

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

John Wiles

Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Crosscheck and gerrymandering are the methods of stealing elections and we, the people, will do all we can to stop these and any other tricks you can dream up to prevent fair voting. You all deserve jail sentences!

Sincerely,

Wilcox Theodore W.

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Joanne Horejsi

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

Kobach and his ideas did no help for Farmers Branch, TX: in his involvement with the anti-illegal immigration measures that backfired and cost the city 1.4 million dollars in a lawsuit settlement. Makes you wonder how much his evil ideas could cost the entire U.S.? Let's not find out. Stop It Now.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

Given that, whether he realizes it or not, Trump benefited from Russian cyber attack in his election and that investigations are as yet unresolved it is an outrage to give this administration the power to pry this much personal information detail from American citizens.. There is a cloud of suspicion as to Trump's sanity, his loyalty to American ways and means, and his debts to Russia. There is no reason not to see this collection of data as a "Fox guarding the hen-house" situation where the information collected will be abused--perhaps being slipped to Putin's cyber army through the "back channels" Trump had been determined to establish. There is no reason to give him trust with this info and far too many reasons not to.

Sincerely,

James McGuiness

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I don't trust any Federal regulatory group to know my voting record, particularly in the primaries. That is opening up the possibility of attacking voters who show a tendency to affiliate with one party. Anyone other than the Social Security office asking for part of my Social Security number is also frightening. I give that to the Veteran's Hospital and my bank -- that's it. The mission of the Pence-Kobach commission is clearly an attempt to control an individual's voting rights. NO!!!!

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Karol Paduch

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Dave La Shay

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

Greg Palast's investigative research and reporting clarifies the role of Kris Kobach and his process to suppress voters of color and our democratic rights.

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Kenneth Saffier

Stop your disgusting policing of our voting rights! It is none of your business and in violation of our citizen rights to vote privately! Your intentions are not honorable and will only lead to more and more stupid waste of taxpayers money looking into the paranoid POTUS' stupidity we have in the White House! Get busy on what is important, not what your divisive, partisan alt-right buddies want to stir up -- STOP LYING and CREATING problems where none exist!

Sincerely,

J. A.

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Darrell Smith

Dear Presidential Advisory Commission on Election Integrity,

You've been unmasked and recognized for who you are. You are the same people who enslaved the people of Germany, you are the Ku Klux Klan, you are the worst side of people's fears. You want to capture other people and make them adhere to your narrow beliefs and fears. No, no, and again I say NO, we won't. We will vote, and will do it the way we want to.

David Barnes

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

JACK & BOBBI SOPHER

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Glenda Ellis

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Thomas Hume

Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans. It is my personal belief that state and, if possible federal legislation should be drafted which would criminalize the actions of political operatives aimed at denying to any citizen the right to vote. Would these same operatives, in denying certain individuals their voting rights, absolve those same persons from their responsibility for paying state and federal taxes? I guess they have conveniently forgotten the phrase school children learn in studying U.S. history- "No taxation without representation"

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Josef Kasperovich

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Tom Clark

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Suzanne Holden

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

The people who have to cheat to get elected are the people who have nothing of value to offer constituents, and who often want to cause them harm.

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Those who put up barriers to voting are people who don't believe in democracy. They only believe in winning, any way they can. They don't deserve to be elected.

Sincerely,

Holly Bergeim

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

theresa lightcap

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

The ability to vote is the one right that makes us all equal. Your deliberate strategy of restricting and intimidating voters betrays our most valued right in a democracy under siege by an authoritarian regime determined to dismantle our democracy. There is no significant voter fraud and most Americans see this commission for what it is an attempt to deny those who tend to vote Democrat their right to vote. Shame on all of you for trying to undermine our democracy. I say this as an Independent voter who is disgusted by our current administration and the Republican party that allowed such an unfit candidate as Trump to become the leader of their party.

Sincerely,

Lisabeth Heman

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Roxane Clark-Murphy

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Marty Nelson

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions. I have called my state commissioner of voting and expressed my concerns. The states should not turn over any information, period. This is a sham, and another way Republicans are trying to intimidate voters to control the outcome in their favor.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Chandra Gordon

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

The fraud being committed is the attack on voters. There is no evidence of rampant voter fraud. No state has uncovered this supposed phenomenon. This is just another attempt to perform voter suppression.

It will be a hacker's dream to have all the information you asked for in one place. What could possibly go wrong?

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Thom Reece

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Dana Linder

Jul 9, 2017

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm 85 years old and have voted in every election - national, state and local - and have full faith that my vote counts because I know that the people who are working at the voting site check our information and signatures very carefully and watch us as we vote. That voter information is secure here locally. There is no reason for a national registry -- at the White House!! I don't want my personal information - especially my Social Security number or telephone number where it might be hacked. I have enough trouble with scam callers now.

I'm greatly concerned that the Pence-Koback commission's request for the private information of every voter in this country has ulterior motives by the Trump administration. We live in a democracy and I pray that our government will continue to live up to those principles.

Very Sincerely,

June Talley

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Roger Marshall

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote. The only significant voter fraud in the United States is caused by Republican attempts to stop "voter fraud". Recall that Republican governors and legislatures in past elections have purged voter rolls of thousands of people supposedly ineligible to vote. Invariably it turns out that most of them WERE eligible. This dwarfs any other documented type of voter fraud.

Sincerely,

Jeffrey Rabin

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I am writing to you because I believe, based on credible evidence, that there is a serious voter fraud conspiracy going on in the United States. That is a conspiracy to keep eligible voters off the voter roles. The main, but far from the only, strategy being used for this is the CrossCheck program which needs to be stopped immediately.

Not a shred or reliable evidence has been offered to show that such a system is necessary even if it were used properly, but simply removing people from voter roles because they have the same name as someone else who is registered to vote, or giving people provisional ballots that will not be counted without some additional verifications, is not fair, not right and not constitutional. It is not decent. You commission members are supposed to be public servants in the United States of America, a nation built on inclusivity and democracy. Have you ever actually visited the Statue of Liberty and Ellis Island? Stand up and do what it right! Dump the CrossCheck system, and make sure every eligible voter has the opportunity and is encouraged to vote. Remove the barriers by allowing registration on Election Day.

Regarding the request for detailed information about every voter, that is not the kind of snooping we need in our country. If you find a number of actual cases (The president claims there are thousands of them, if he is not delusional, then it should easy to show some concrete evidence), then pursue those and find out the mechanisms by which those people voted in two places, or otherwise voted illegally. As you know, it is not a crime to be registered to vote in more than one place. It happens inadvertently to many Americans, even politicians. That should never be used as an excuse to disenfranchise voters. It is a third world tactic, not worth of our system of governance.

If you really want to cut out voter fraud, please make sure that we have an updated consistent voting system, which leaves paper trails of all votes. This is the only way we will regain the trust of the American people in our democracy. With voter machine irregularities and outside meddling in the elections, our whole system is more in doubt now than it has ever been. I hope you will do your utmost to restore the faith of the American people in democracy by following these suggestions.

Thank you for your attention

Sincerely,

Paul Jaffe

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

The Pence-Kobach commission's recent request for private information about every voter in the country is just the most public of many attempts to push nationwide voting restrictions.

Thank God state election officials have put their duty to the electorate above this partisan attack on voters, and the American people will not be intimidated out of exercising our freedom to vote.

Using false claims about illegal voting to suppress votes is despicable. Instead, we should be modernizing our elections to allow automatic voter registration, Election Day voter registration, and early voting . Furthermore, we should return to paper ballots immediately, as both foreign and domestic hacking can occur. We must have a clear paper trail everywhere. That worked excellently for centuries.

We The People will do whatever it takes, together, to protect our right to vote and to have the votes counted accurately and honestly. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Peggy Datz

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

David Harris

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Seabury Lyon

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Johnny Guthman

I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote. Americans need to wake up. Can you imagine what could happen with all personal information in one place and with Putin's puppet in the White House.

Everyone needs to google Kris Kovach and read about him. His mission in life is voter suppression. He is anti immigration and has been found less than candid with his policies. Also, remember he has not been vetted by Congress. He is Trump's appointee. He has a checked past..and this is the guy you are going to trust with your personal information?

Sincerely,

Nancy Knieriem

I'm outraged and deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans. The Republicans can't win unless they re-configure voting districts, and the only fraud is committed by the Republicans. Why didn't we hear anything about the few voters that got arrested in Iowa for trying to vote TWICE for Drumpf? Didn't hear about that in the news media. The only fraud committed is by Republicans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote. They do not need social security numbers or any of the other information requested. It is a complete sham so they can commit more fraud in the next election.

Sincerely,

Jeanne Lewis

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Bonita Shea
