Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Maxine Fraade

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Debra Westman

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

First they came for the Socialists, and I did not speak out--
Because I was not a Socialist.

Then they came for the Trade Unionists, and I did not speak out--
Because I was not a Trade Unionist.

Then they came for the Jews, and I did not speak out--
Because I was not a Jew.

Then they came for me--and there was no one left to speak for me.

The Pence-Kobach commission is coming for all voters. Including those
who Pence and Kobach say they are defending.

Sincerely,

Ken Zimmerman

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Roy Cheatham

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Suzanne Ryon

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Jennifer Frary

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I am actually outraged. And I find it so hard to believe that Trump has so many people in high places are sucking up to him. I do not want my information shared. I do not believe he had the popular vote.

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

The 'Integrity' in the commission's name seems to be for show only. In a representative democracy, there is no integrity in voter suppression.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Mercedes Roman

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Donald Schwartz

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Laura Reiher

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

Everyone with a brain knows this is a waste of time and energy to address a nonexistent problem. You should be ashamed to waste the taxpayers' time and money on this effort. Donald Trump is delusional if he really thinks that millions of inappropriate votes cost him the popular vote when the simple fact is that the majority of the Americans who voted in the election chose Hillary Clinton.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Carol Fahrenbruch

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I strongly oppose any government attempt to data mine or collect personal voter information for the political purposes of intimidating voters or suppressing voter turnout.

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes.

Modernizing our elections by allowing automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it.

I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Anyone who willfully engages in voter suppression tactics risks prosecution and should think twice before looking into a mirror.

Sincerely,

Allan Huffaker

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Connie Edgemon

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that libtards are opposing Pence-Kobach commission's recent request for private information about every voter in the country to determine if they in fact exist.

I'm angry that state election officials have put politics ahead of their duty to voters to ensure their vote has actual meaning, and I want you to know that the American people will not be intimidated by these self-serving tactics.

The best way to uphold the integrity of our elections is by making sure every voter really IS eligible to vote and have their vote counted as cast -- not using fake 'votes' by cadavers or multiple votes by the same people. Our elections are too important to allow tactics like automatic voter registration and Election Day voter registration. Americans can vote if they wish to. Making it easier for the Parties to cheat the People is unacceptable.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let smarmy politicians to intimidate me or any other eligible American from exercising the freedom to vote, and to have that vote count as it should.

Sincerely,

Lawrence Hooten

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Mary Sharpee

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that libtards are opposing Pence-Kobach commission's recent request for private information about every voter in the country to determine if they in fact exist.

I'm angry that state election officials have put politics ahead of their duty to voters to ensure their vote has actual meaning, and I want you to know that the American people will not be intimidated by these self-serving tactics.

The best way to uphold the integrity of our elections is by making sure every voter really IS eligible to vote and have their vote counted as cast -- not using fake 'votes' by cadavers or multiple votes by the same people. Our elections are too important to allow tactics like automatic voter registration and Election Day voter registration. Americans can vote if they wish to. Making it easier for the Parties to cheat the People is unacceptable.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let smarmy politicians to intimidate me or any other eligible American from exercising the freedom to vote, and to have that vote count as it should.

Sincerely,

Lawrence Hooten

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that a majority of state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Nancy Wiesenfeld

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Lindsey Shepherd

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Andrea Courtney

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions. How dare you you fascists. Have you ever wanted to know how Hitler found the Jews, gays, disabled, mentally ill, gypsies that he sent to death camps? Your plan is fascism and the first step to send all these people and other's to Trump's death camps. We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

We end citizens united and get money out of politics. We must insist that this be on the ballot in November 2018 since the Congress has no intention of ending their gravy train. We must also have election reforms. We must have term limits for Congress and the SCOTUS, ban voting machines and require paper ballots only, outlaw Gerrymandering completely, make ANY law restricting voting illegal, make all elections publicly funded with no contributions allowed, extend voting dates and times, make election fraud a capital crime, make voting fraud a mandatory 20 years in prison, allow voting on Sundays, ban the networks from reporting second by second results and make them wait until all polls are close, make voting mandatory, allow felons to vote once they have paid their price to society, require all candidates to pass an IQ test, a drug test, and show 10 years of their tax returns.. Do a criminal background check for all candidates, require networks to set aside free time for all candidates, bring back the Fairness Doctrine, bring back the Sherman Anti-Trust Act, raise income taxes to the level they were before Saint Raygun fucked the middle class. I am sure you can think of many more Republican atrocities that need to be righted. Put all of this on the ballot for November 2018. If the feds will not do it then we need to require the States to do it or their votes will not be counted.

Sincerely,

John Best

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Peggy Clarke

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Shelley Mack

This commission to investigate this so called fraudulent vote that is a figment of Mr Trumps and his follower's minds. Vote fraud is virtually non-existent in this country, indeed, the only prosecution so far, despite Mr Trump's insistence, has been one person, in Iowa, of all places, a state Mr Trump won. The two votes cast were for Mr Trump. This commission has the power to destroy voting rights on a grand scale, it reminds me of the Nazi Anschluss with its wildly inflated voting totals for the Nazi Party, something totally make believe, like this idea of vote fraud. Get it straight, voter fraud is very rare, indeed, Attorney General Sessions when he was attorney general of Alabama, despite a through investigation, found less than fifty fraudulent votes. Get a real problem like overcoming and removing voter suppression that is taking place.

Sincerely,

Glenn Kraus

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Sally Van Meter

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote. Any Commission on Voting should be towards making sure that EVERY ELIGIBLE AMERICAN IS SIGNED UP TO VOTE!

Sincerely,

Ron Spies

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Reginald Fleming

Dear Presidential Advisory Commission on Election Integrity,

Your actions are contrary to everything our Republic has stood for for over 200 years. I will work tirelessly to remove you from office. I am sickened and angered by what is happening to my country. I grieve for my children and grandchildren who don't yet know what is at risk.

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Virginia Harstad Glawe

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the start of a push for nationwide voting restrictions. Was that action even legal?!

I'm glad that many state election officials have put their duty to follow the law above this attack on voters, and I want you to know that attempting intimidated is not acceptable, and that is what this looks like.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all.

Sincerely,

C.J. Livingston

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Leigh Fox

With the threats we have heard for our elections or in other countries, why would we put all that info on one computer and it sounds like it wouldn't even be secured. So it doesn't sound like that is why you are so concerned about this program.

Sincerely,

Lowell Johnson

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I am sorely troubled that this commission even exists; it is based on thoroughly debunked falsehoods about massive in-person "voting fraud." So of course I am deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push targeted nationwide voting restrictions.

I'm glad that so many state election officials have put their duty to our democracy above this partisan attack on voters, and I want you to know that we the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

If you are truly interested in election integrity, you should support the Election Assistance Commission, to help all states use modern secure voting machines with auditable paper records, and to perform statistically meaningful audits.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

David Canright

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

frieda forsley

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Randy Caffejian

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

J S

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions. There is absolutely no evidence to support some claims that illegal voting is a problem in this country! There is strong evidence that the Russian government has tried, and will continue to try to meddle in our elections!

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions. Our right to a free unobstructed voting process our personal and private business. None of that information should be made public and placed on lists of any kind. As long as we citizens are legally registered voters in the states, counties, and cities we live in, none of this information should be provided to the federal government. It can only lead to more misconduct by the two major parties in this country and negatively impact future elections.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Diane Huigen

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Gregory Malueg

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

Mr. Trump's bogus claim that millions voted illegally isn't justified by ANY statistics, and his appointment of a commission to investigate this claim is a huge waste of tax payer's money. Right after Trump made his assertion, even Paul Ryan commented on national media that he felt this was unjustified.

I am more concerned that we have an Electoral College which skews the votes of all Americans, giving more power to some states than others. We need a National Majority Vote so that the person with the most popular votes wins. Period.

Sincerely,

Anita M. Jensen

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Kenneth Hyche

It should be your first duty, as I see it, to ensure that there will never again be any foreign interference in US elections. THAT is what you should be working on, not on eliminating a problem that does not exist such as your trumped up claims of rampant voter fraud. YOU are the fraudulent party here, NOT the American voters!

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I see this for what it is: the "big lie" technique once used by Goebbels to bring the Nazis to power. There is NO fraudulent voting evidence; this is a ploy to provoke a Pavlovian knee-jerk reaction. Anything to distract citizens from the beerhall putsch Trump backers want to stage.

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Arlene Jennings

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Andrew Jones

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Karen Kindel

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

The Pence-Kobach commission's recent request for private information about every voter in the country is an obvious ploy to push nationwide voting restrictions.

I am pleased that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, all mail-in voting, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not be intimidated by this Commission and I will work to protect the voting rights of any other eligible American.

Sincerely,

Judith Davis

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Kelley Keisch

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

Rather than snooping on all the states voter registration lists, why not work to make it easier for all voters to vote, e.g. more equitable distribution of voting machines, more hours for early voting.

Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

Sincerely,

Jerry Berkman

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Dee Warenycia

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

Rather than snooping on all the states voter registration lists, why not work to make it easier for all voters to vote, e.g. more equitable distribution of voting machines, more hours for early voting.

Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

Sincerely,

Jerry Berkman

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions. It is an insult to all of us.

And attempting to create a concentrated nationwide data base, apparently to be kept in the White House, is fool hardy to say the least. It would be an inviting target for hackers of all types with different goals.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Robert Blankenship

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

John Cloonan

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions. It is an insult to all of us.

And attempting to create a concentrated nationwide data base, apparently to be kept in the White House, is fool hardy to say the least. It would be an inviting target for hackers of all types with different goals.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Elizabeth Werner

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Paul T

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Sharon Wiesler

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Laraine Turner

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Sandra Franks

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote. The Trump/Pence administration is nothing short of being un-American.

Sincerely,

Carol Young

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Nancy Parish

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Gilbert Canary

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Debbi Pratt

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Cary Appenzeller

This commission has nothing to do with voter fraud. You already know that there is no data to support this at all. It is clear that your goal is collect information you have no right to so you can proceed with massive voter intimidation and disenrollment based on flimsy and inaccurate criteria. Your actions are unconscionable. I urge every state to refuse to provide any data to you at all. You are dishonest in your intent, to the extreme. Damn you! I hope the courts can protect us from your efforts to effect a coup from within.

Sincerely,

Dean Carr

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Julie Robinson

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Ann V Gordon

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Linda Lee

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

As a University student, before my marriage my name was Carolyn Smith. I lived in a dorm with 65 other women. There was another Carolyn Smith and two Carol Smiths. If there can be name duplication in such a small sample, as a mathematician I can say with confidence that there are likely to be thousands more Carolyn Smiths in the United States. The practice of cross-check will clearly disenfranchise many people the way it is set up. Congress should outlaw the attack on the voting rights of many. Even uncommon names can be honestly duplicated.

I actually know a Clarence Thomas who lives in the San Francisco area -- former president of the Local 10 of the Longshoremen's Union. I also know a woman named Pat Buchanan who lives in this area. And those are not common names like Smith, Lee, Johnson, Brown etc.

So please stamp out crosscheck.

Sincerely,

Carolyn Scarr

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Willard Richards

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions, and again assault our privacy rights.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote. We know that there has been no voter fraud - on the part of voters, although we know voting machines can be manipulated.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans. (And gerrymandering MUST stop. Talk about voter suppression.)

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Joan Mari Neville

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Kathie Snavelly

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Charlotte Williams

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

James Nelson

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Halie Hennessey

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I am sickened by the Pence-Kobach commission's recent request for private voter information.

I agree with California's Secretary of State Alex Padilla:
"California's participation would only serve to legitimize the false and already debunked claims of massive voter fraud."

This is filthy politics at its worst, aimed at undermining the power of the electorate and this democracy.

I'm glad to see the states' refusal to allow such hubris and abuse of power.

Sincerely,

Barbara Adams

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Janice Dlugosz

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

We already have too many barriers to voting. To have election integrity, every citizen over 18 must be able to cast a vote that is correctly counted. We are far from that right now. We must encourage voter turnout and have a paper trail of all votes.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Angela Mastaloudis

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Sandra Stokes

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Brett Douglass

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Marie Demarais

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Chris Francisco

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

MARIANNE SECK

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

President Trump is promoting the falsehood of voter fraud to explain his loss of the popular vote in the 2016 election, but his insecurity masks a more insidious agenda to take away voting rights from American citizens and put elections in the control of the wealthiest few.

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Robert Black

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions. I am also fearful that this national data base will become an invasion of privacy and threaten the civil liberties of individuals.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

Instead of launching an intimidating investigation based on myth and non-existent data, I urge the commission to promote voting and to expand, not constrict, voter rolls.

Sincerely,

Steve Longenecker

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Dianne Douglas

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

Our government should be doing everything it can to encourage voting, not putting up barriers to prevent participation and demanding personal information in an attempt to make people afraid of going to the polls.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Marilee Meyer

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

When I go into the voting booth I want to be able to vote freely and privately without any outside interference such as the Pence-Kobach commission proposes. This erodes our democracy and has the fingerprints of dictatorship.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Delores Smith

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Janet Dersey

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Gregory Duncan

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

Voter fraud is NOT a significant problem in our country. Studies shown that the incidence of voter fraud is minuscule. The REAL problem is voter suppression. We need to be expanding the ability of our citizens to participate in our democracy, not restricting participation.

Please use your skills and resources in ways that will strengthen our democracy. Please work on ways to modernize elections by allowing things like automatic voter registration, Election Day voter registration, and early voting.

Stop wasting time and energy on the non-issue of voter fraud and instead focus on engaging citizens in participation in our great democracy.

Sincerely,

Wendy Greenspan

There is NO WAY I will agree to the release of my information, and if it is released I will do everything in my power to defeat the reelection of anyone who voted to release it. Among other things, the creation of a single unified list of voter information makes it much more susceptible to hacking by a foreign power. Moreover, your commission is a sham. The claims of voter fraud are greatly exaggerated, and the recent trend toward passage of laws excluding voters is alarming.

Sincerely,

Gene Hanson

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Angela Armstrong

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Gail Melhado

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Sharyn Dreyer

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Richard Fairfield

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

joe e crum

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

J. Badger

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

The proper course of action in the USA today is voting encouragement, to raise the percentage of citizen turnout both of new and existing registrants. Statistically speaking, the problem you perceive is negligible and insignificant. Your commission is a solution in search of a problem.

Your purpose is transparent. It is to suppress the vote, of which no American should be proud, and the targets of your efforts are those of lesser privilege, whom you identify as likely Democratic supporters. Your purposes are ignoble, and we see what you are doing. You should be deeply ashamed of yourselves.

Sincerely,

Shearle Furnish

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Victor Vuyas

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

ofelia garcia
