The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Jean Mont-Eton

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Walter Pinkus

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Beverly Holland

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

David Bosboom

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

David Schwebke

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Francine Koehler

Jul 9, 2017

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

Voter suppression is the issue here, not voter fraud and I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions. This is NOT what "democracy" looks like nor is it the model for the rest of the world as some would have other countries believe.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. If Russian hacking skewed our election results, this needs to be investigated thoroughly and the election nullified across the board if found to be the cause of our current "leadership"

Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, standardized voting machines, reduce campaigning to 3 months, require the media to provide free campaign advertising, open debates to all parties and all those running for election and early voting are important steps to lowering the barriers to participation for all Americans. Overturning "Citizen's United" is another thing that must be done to get the obscene amount of money, bribe money, out of politics once and for all.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote. Voting is everyone's Constitutional right.

Sincerely,

Barbara Magnuson

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Donald Leary

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Matt Brzezinski

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm dismayed with the Pence-Kobach commission's recent request for private information about every voter in the country, realizing that it could be the first of many attempts to force unwarranted nationwide voting restrictions.

Thankfully, state election officials have put their duty to voters above this partisan attack on voters; the American people will not be intimidated from exercising our right to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote AND have their vote counted as cast, not by using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and We The People will do whatever it takes, together, to protect that freedom. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions. There is no need for a "national database" of voter personal information.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Frank D Taff

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

David Herdman

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

Sure, I am going to give you all my personal information and then you can pass it on to Putin! OPEN YOUR EYES, watch what is happening to our democracy right in front of us, chaos, dis-integrity of our elections, dismantling of our basic protections of free speech and clean resources and PRIVACY! - it works in x-soviet countries, why not here.

Sincerely,

Ellen Beier

Jul 9, 2017

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

This "commission" is a totally unnecessary government intrusion into state's rights. It is a blatant attempt at voter intimidation and restriction of voting rights. It certainly appears to be the beginning of an effort to force unwarranted voter purges.

The National Voter Registration Act reminds us that the NVRA requires states to "conduct a general program that makes a reasonable effort to remove the names of ineligible voters from the official lists." If a state wants to act to remove a voter from its rolls, it must first send a broad, nondiscriminatory solicitation seeking a confirmation of address to those registered. If a person fails to respond, they can only be removed from the rolls if they don't vote in the next two consecutive federal elections.

The Pence-Kobach commission appears to be paving the way to kick eligible Americans off of voter registration rolls, push for new voting restrictions, and intimidate voters from exercising their freedom to vote. This is unacceptable and no American who is eligible to vote should be refused the right to do so.

Sincerely,

Karen Conyngham

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Zallia Todd

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions. I am also concerned that this commission is wasting valuable time and money on this matter that is a baseless issue based on false claims.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

I believe there is integrity in our elections. The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Sharen Schulz

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Russell Tonelli

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

J Webb

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Janice Scofield

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Walter B. Jones

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Show me the evidence of voter fraud. I thought we had a secret ballot here in America.

Sincerely,

Norma Eagles

Jul 9, 2017

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I am seriously concerned about the various burdensome queries set forth in Kris Kobach's letter. Nowhere does Mr. Kobach explain why all this personal information is needed, and what the Commission intends to do with it. As a secretary of state himself, even Kobach is not complying fully with his own letter. His intrusive and inexplicable request makes disruptive and discriminatory action at the federal level possible. Every court that has analyzed the issue has concluded that there is absolutely no evidence of widespread voter fraud. Furthermore, elections are a state issue. That means that "publicly available" information is still subject to state limitations and so is not strictly "public" on a national level. Indeed, having separate state voter rolls rather than a central clearinghouse helps protect voting systems against the hacking attempts that we have already seen. If the Commission were serious about protecting voter data, it would not have asked that the data be sent to ElectionIntegrityStaff@ovp.eop.gov," which does not use basic security protocols.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote. On the contrary, we will push harder for it. Freedom to vote is the bedrock of this country and we will not let it be profaned in the name of a nonexistent issue.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans. Keeping voting machines functioning at peak performance is also necessary; in 2016, 42 states used voting machines that were at least a decade old, which is perilously close to the end of most systems' expected lifespans. Old voting equipment can have serious security and reliability flaws. Concentrate on the REAL problems, not an invented one, because an invented problem is a smokescreen for a completely different agenda. The American people know this, and we will not stand for it.

The freedom to vote is the cornerstone of our democracy, and I know

that We The People will do whatever it takes, together, to protect it.
I will not let this Commission intimidate me or any other eligible
American from exercising the freedom to vote.

Sincerely,

Elissa Malcohn

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Pierre Lebreton

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Hochberg Adrienne

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Patricia Schmidt

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

Yes, we do have voting problems in the US. (1) The Russians have hacked our elections and will try again. (2) Voter ID and other confusing and restrictive requirements are suppressing the votes, particularly of lower income and voters of color. (3) Voters lack substantive information on the candidates and issues on the ballot, so naturally they avoid casting ballots they fear may be in error. (4) Redistricting excesses by both Democrats and Republicans are making the votes of millions irrelevant, so it's no wonder that many feel their votes don't count.

But voter fraud? That's virtually non-existent, according to every reputable study conducted. So why are you devoting resources to voter fraud, instead of the real problems that stifle democratic voting?

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I am baffled as to why you are digging deep into supposed voter fraud within out country risking privacy by asking for such detailed personal info about every voting american. If you really suspected fraud then dig deep in those ocunties or cities or voting booths but do not generalize this to all of the USA.

And on a related and much more important issue- why are you NOT deeply digging into the Russian interference which has been PROVEN and threatens our core of our democracy. What are you doing on this front. This is wayyyyyyy wayyyyyyy more important than a few stories of people who voted twice or a dead person who got counted.

Please think country over politics and over power.

I would prefer you think of ways to increase engagement like everytime someone gets their driver's license renewed they also register to vote.

Please dig deep in your own soul and do the right thing.
Karla Albright

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Dale Goodin

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Mark Hanson

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Alicia Hanson

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm extremely disconcerted with the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions. Following from a trumped up charge of massive voter fraud you think that you can bully us into submission. Don't go there. We will stand up for the rights of Americans to vote. We will fight against anything that smacks of voter suppression. You do not have the right to make it so difficult for an American to prove that they are a citizen that they are refused the right to vote. You may not suppress voting rights because you don't like: how someone looks, what they believe or how their views differ from yours.

This commission is not about integrity. This commission is about discrimination.

I call on you not to stand for the the voter rights of the chosen few.

I call on you to stand up for the voting rights of all of America's citizens.

Sincerely,

Paula Yocum

Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

There is strong evidence that programs like Interstate Crosscheck deliberately purged over a million legitimate votes in the last election and are blatantly fraudulent attempts at using the false claim of voter fraud to suppress legitimate voting rights. The silence of Democrats on this issue is also disturbing since they seem to have been guilty of vote suppression themselves in the primaries when it was Democrat against Democrat. Citizens should be demanding a revote with ranked preference voting and Bernie's name back on the ballot.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

John Manahan

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm not a constitutional scholar, but I'm sure that there are more than a few constitutional arguments to be made that this request violates several rights given to American citizens in that document. If how an individual voted was supposed to be public, we would not need voting locations set up with private booths, envelopes to submit your ballot in, etc. THIS REQUEST IS AN OFFENSE TO AMERICA. I applaud the states, governors, and everyone who is refusing to comply. They are honoring the country over politics.

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Pat Linton

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Debbie Zapata

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Mayra Hernandez

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I do not trust this administration to responsibly handle voter registration data. Integrity? Fix the gerrymandered districts first. Prove you can count the actual size of inauguration crowds. Stop playing footsy with Putin. I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Alys Hay

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Michael Moats

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote. I thought Republicans favor small government. This seems like a huge overreach and invasion of privacy and the sacredness of the vote. It will cost a lot of taxpayer money to pull this off, as well. Please stop this unnecessary sweep of personal voter information immediately. Thank you.

Sincerely,

Sue Spigel

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

William Insley

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Beth Laurer

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

ellen credille

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote. In the state of New Mexico which I proudly call home, our Secretary of State Maggie Toulouse Olivier has bravely stated she will not turn over such information without a great deal of information on why it is wanted and how all of that voter information will be kept secure. All New Mexicans agree with her and are grateful for her stand.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Michael Megee

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Michaelangelo Deserio

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm very worried that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to enact nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters. I believe that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. We will not let this Commission intimidate us from exercising the freedom to vote. But I am deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions. Voter suppression is a much, much more serious problem across our country than the extremely low incidences of voter fraud.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions. We will not stand for the Trump administration kicking thousands of eligible voters off the voter registration rolls, trying to put in place new voting restrictions, and intimidating voters from exercising their freedom to vote through this phony voting commission.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Gloria Smestad

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Gail Fitzgerald

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Hans Bredemeyer

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I suspect that the Pence-Kobach commission's recent request for private information about every voter in the country will be the first of many attempts to push nationwide voting restrictions.

I approve state election officials' protection of voters' privacy. As a precinct election official since 1992, I know that the "election fraud" touted by Trump and Kobach is almost nonexistent. I do not wish to allow this excuse for voter suppression. The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast. Automatic voter registration and early voting are widely supported and do not contribute to risk of fraud.

The freedom to vote is the cornerstone of our democracy, and I find it contemptible that this Commission has been created under false pretenses.

Sincerely,

Jan Brittan

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Patricia Crais

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I am very disturbed by the Pence-Kobach commission's recent request for private voter information as part of their strategy to disenfranchise eligible voters across the country.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote. States around the country, including my home state of Oregon, have developed successful strategies to strengthen election integrity. These strategies, such as automatic voter registration, vote by mail, Election Day voter registration, and early voting are proven best practices for strengthening our democratic system. In contrast, the Pence-Kobach strategies are thinly veiled efforts to undermine our democracy.

Sincerely,

Kristina Smock

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

ETHEL RUYMAKER

Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

If none of the election officials in any of the 50 states are clamoring for an investigation into voter fraud why does the Federal Government feel compelled to spend tax dollars on what seems to be a nonissue. I see nothing to be gained and possibly a lot to lose.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Julianne Canada

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Michael Mcginley

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Linda Minor

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Cynthia Phillips

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

To the Presidential Advisory Commission on Election Integrity,

I am alarmed and deeply concerned at the Pence-Kobach commission's request for private information about every voter in the country. To me it is clear that this could be the first of many attempts to push nationwide voting restrictions.

Election officials have my TOTAL support for placing voter rights above this partisan attack on voters. I want you to know neither I nor the American will be intimidated out of exercising our freedom to vote. We will fight this injustice EVERY step of the way.

The best policy we have to uphold the integrity of our elections is to make sure every eligible voter has the opportunity to vote and have their vote counted as cast. Using false claims about illegal voting as an EXUCSE to suppress votes will not be tolerated. We must take ALL available steps to lower barriers to participation for all Americans to vote. These steps include:

- 1)Modernizing our elections to allow things like automatic voter registration.
- 2) Election Day voter registration.
- 3) Early voting opportunity in every state.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,
Kathryn Lindquist

Jul 9, 2017

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent Nazisque request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

Our election system is incredibly corrupt and rotten to the core. No one trusts it, no one! From the designed to be hacked voting machines, to the compromised scanning system with the executable file on the memory card. All have been well documented from past corrupt elections, but nothing has been done to correct the problem. What a justice system!

In 2000 we heard how Mr. Richardson from Jeb Bush's government hired someone to hack the vote in the voting machines. He wrote 17 lines of code to flip the vote when the P-R-T was pushed. He became a whistleblower and there was a Congressional Hearing. He received some jail time and a fine, the President of Diebold admitted the machines were designed to be hacked, yet nothing was done about the election results or the voting machines.

We saw well documented corruption in 2004 in Ohio. Again nothing was done. Scanning systems are not accurate even when not hacked. There are so many flaws and security vulnerabilities in our election system that it can not be trusted to accurately represent the selection of the people.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting, non-hackable voting and scanning systems are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Roger Osborne

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Kristin Klass

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm horrified at the Pence-Kobach commission's request for private information about every voter in America! Kris Kobach has for years, promoted voting restrictions, voter suppression, and partisan gerrymandering. These are likely motives for his voter information requests to all 50 State election officials. I am further horrified that Donald Trump plans to set up a cyber security task force with Vladimir Putin. I am sure that Vlad will want American voter information for "security reasons." Trump trusts Putin, but not our own national security agencies.

Fortunately, almost all state election officials have placed their duty to voters above this attack on voter privacy and rights.

I will not let this fake Commission investigating non-existent voter fraud, intimidate me or any other eligible American from exercising the freedom to vote. This commission will not distract me from the real investigation of election tampering and collusion between top Russian officials and the Trump campaign.

Sincerely,

Chris H.

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

John Breslin

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned and very angry about the Pence-Kobach commission's recent request for private information about every voter in the country. As a responsible voter for many years...but also a citizen who values my privacy...I am outraged at this infringement on our rights.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans. We should be encouraging more citizens to vote, not trying to intimidate and discourage them from doing so.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Jul 9, 2017

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I stand with the many Americans who are deeply suspicious of the Pence-Kobach commission. The Crosscheck system, created by Mr. Kobach himself, has been used to disenfranchise tens of thousands of eligible voters in numerous states, based on a faulty analysis that equated, for example, a James Clifford Brown in one state and a James Lynn Brown in another state. If both of these men named James Brown voted in their respective states, the Crosscheck system claimed that this was an instance of voter fraud. Clearly, the real fraud here is that perpetrated by the Crosscheck system, not the attempt by qualified American voters who may have similar names to cast their legitimate ballots.

State election officials must not supply data to a commission that uses such data to disenfranchise American citizens under false pretenses. Disgraceful projects such as Crosscheck, designed by Mr. Kobach only to suppress the vote, must not be tolerated in a nation that calls itself a democracy.

If we are truly interested in upholding the integrity of our elections, we will make it easier for every eligible voter to register and vote. I support automatic voter registration, election day voter registration, and early voting. The Pence-Kobach commission cannot be trusted to uphold the integrity of our elections, despite its lofty sounding name.

Sincerely,

Johanna Kovitz

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Tracy Curtis

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Ernie Walters

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

The supposed purpose for the Pence-Kobach commission is to uncover voter fraud. Since voter fraud is so very rare, this commission is not necessary. Instead, I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions. We need to encourage greater voter participation, not voter restrictions.

Sincerely,

Berle Clemensen

Jul 9, 2017

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

Wife Virginia and I are worried that the Pence-Kobach commission's recent request for private information about every voter in the country is the precursor of attempts to push nationwide voting restrictions.

We are comforted that state election officials have put their duty to voters above this partisan attack on voters, and Virginia and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure:

- (*) that every eligible citizen can vote;
- (*) that every vote cast counts;
- (*) that the practice of making false claims about illegal voting to suppress votes be stopped;
- (*) that automatic voter registration be mandatory;
- (*) that Election Day voter registration be mandatory;
- (*) and that a minimum early voting period be required for all states.

Lets lower the barriers to voter participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and Virginia and I know that "We The People" will do whatever it takes, together, to protect it. We will not let this Commission intimidate us or any other eligible American from exercising the freedom to vote.

Sincerely,

Jim and Virginia Wagner

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Rudi Nelson

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Susan Machie

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

angie kincaid

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Larry Siglin

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

The goal of this commission was transparent the moment Kris "Voter Suppression" Kobach was named to it. The whole commission was formed on a false premise of massive voter fraud, for which there is not an iota of credible evidence. This commission is a solution in search of a non-existent problem, and the leadership clearly indicates the goal is to manufacture a problem that doesn't exist as a pretext to scrub voter rolls and institute voter ID laws that amount to thinly disguised poll taxes.

Sincerely,

Elizabeth Victor-Slind

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Carol Ng

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I do NOT support the purported mission of the Pence-Kobach commission. Their recent request for private information about every voter in the country could become a HACKFEST. Keep voting rolls under states' control and fund making them non-hackable, instead of having a national database. Make sure every eligible voter can vote and have their vote counted. I favor: automatic voter registration, Election Day voter registration, and early voting.

Protect us, do not delete us.

I will not support this Commission intimidating anyone.

Sincerely,

Mary Dzvonic-Olson

Jul 9, 2017

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Robert Fitch

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Terry Kippenberger

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

William Davison

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Carol Murry

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I am deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I am glad that state election officials have put their duty to voters above this sly partisan attack on voters, and you can bet that ALL OF US are going to continue to exercise our freedom to vote.

The best way to uphold the integrity of our elections is to make sure that every eligible voter can vote and to have their vote cast and counted-- not using idle tweets about someone's assumption of illegal voting to start a process of suppressing votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is a cornerstone of our democracy, and We The People will do whatever it takes, TOGETHER, to protect it. NO ONE will intimidate me nor any other eligible American from exercising our freedom to vote and now, we will vote OUT all those who supported this ridiculous proposal when we do so.

Sincerely,

Linda Ray

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Kathryn Boling

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Sherrill Gary

Jul 9, 2017

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

It is apparent to me that the Pence-Kobach commission's recent request for private information about every voter in the country is simply one of many attempts to push nationwide voting restrictions.

I am relieved that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that we shall not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have his/her vote counted as cast, and not using as is the Trump administration false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. Trump's and Pence's tactics of intimidation are despicable, and I support opposition to voter intimidation.

Sincerely,

Donald Carroll

Jul 9, 2017

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm alarmed about the Pence-Kobach commission's recent request for private information about every voter in the country. There is no evidence of the massive fraud the President has claimed, and the commission seems like the kind of Washington boondoggle Trump promised to stop.

Building a national database without adequate preparation for security is a recipe for disaster. The commission would do better to expand the work already being done by 21 states through the Electronic Registration Information Center.

I'm glad state election officials have put their duty to their voters above compliance with a risky request. Frankly, given the history of the Republican party and of Mr. Kobach on voter intimidation, I have grave misgivings about how the information would be used. Purging voter rolls is a fine goal as long as adequate measures are taken to prevent the false positives that stop legitimate voters from exercising their right.

Let's protect voting rights at least as much as gun rights! Both are vital protections of our freedom.

Sincerely,

Greg Linden

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

jackie beecher

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Reynold Campos

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

The freedom to vote is the cornerstone of democracy. Gerrymandering and voter suppression are reprehensible. Trump is well aware there was no voter fraud; he would never risk the possibility that people voted illegally for him, as well as Clinton.

His three fold purpose in forming this Commission is to 1) show how powerful he is and to look like he is actually doing something, 2) to try to prove his delusion that he really should have won the popular vote, and 3) to nefariously have voter information stored on the White House computers.

If Obama had tried this, can you imagine the hue and cry?

Trump admires Putin and is quite willing to throw democracy under the bus in order for supreme power to be his. We do not have an emperor in America, our Constitution has prevented this, and I can only pray that this insane man is ousted as soon as possible. Until that time, you are each on the front line, protecting our freedoms from his delusional behavior.

Thank you for standing your ground and not blindly acquiescing to the bully in chief and his minions.

Sincerely,

Diane Stannard

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Joan Robinson

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

J. King

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

In my life I have lived in 3 different states. I did not "resign" from the state I left when I moved in 1979 nor in 1987. I have no idea if my voter information is still on any other roster. I vote where I live and not twice, as does 99.99% of voters. Go catch the bad guys who keep people FROM voting.

Modernize our elections to allow things like automatic voter registration, Election Day voter registration, and early voting. These are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Michael Freeman

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm convinced the Pence-Kobach commission's recent request for private information about every voter in the country is a move toward restricting votes and perhaps using private voter information for political or other nefarious gains.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. We shouldn't let this Commission keep us from exercising the freedom to vote.

Sincerely,

Patricia Gibson

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

The Republican Secretary State in New Hampshire has affirmed many times that voter fraud did not take place in the November General Election.

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country, especially those in New Hampshire where we cherish our Live Free or Die motto, could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions. This is America, supposedly the bastion of freedom and a light to the world. This is not a banana republic or a Communist dictatorship. George Orwell's 1984 is supposed to be a cautionary tale, not a user guide!

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Diane Miller

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Judy Mckeon

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Lillian Korous

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Jeff Groh
