The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Tony White

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Maria Dammer

Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

Every investigation into voter fraud in the past 6 or more decades have confirmed that there is no meaningful voter fraud in the United States. To form a committee made up of people with a mandate to find voter fraud is the most dishonest thing this administration has tried to pull!! Another attempt to pay no attention to federal and state privacy laws, many of which forbid personal information about voters to be released to anyone! what more can a President do to transform our democracy into a kingdom where no one can question anything a President wants to do!!

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Tony Eichelberger

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Bryan George

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Soha Mustafa

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Dorothy Andries

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

The freedom to vote is the cornerstone of our democracy, and I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I strongly support the state election officials who have put their duty to voters above this partisan attack on voters. The American people will not be intimidated by this attack on our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast. The current administration's false claim about illegal voting is being used as a ploy to suppress votes. We should be modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting so every eligible voter is able to cast their vote.

Sincerely,

Joann Doyle

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Jan Leath

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Donald Greer

I am fortunate to live -- and, hence, to vote -- in Massachusetts, where all the decision makers are opposed to this horrendous voter suppression commission. I worry, though, about voters in other parts of the country, and I hope that we can band together to help.

Sincerely,

Linda Dube

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Anil Prabhakar

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Margaret Morris

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

Your commission is undemocratic in the extreme, and those who run it, support it and enable it are the worst of hypocrites. You know it is a sham, but you will do anything to hold on to power. You make good fascists and would have been Nazis 75 years ago. Some day history will show you for what you are and your children or grandchildren or great-grandchildren will be ashamed of you and hide their ancestry. Imagine that!

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans. Furthermore, Election Day should always be a National Holiday with stiff fines for employers who refuse to give their employees a paid day off so that they can engage in participatory democracy.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Furthermore, I condemn the way that the Trump administration has done everything in its power to rob us of our rights as citizens. I look forward also to the day when the investigation reveals that the Trump campaign colluded with Russia to subvert democracy and then tried to cover it up. You people are shameless destroyers of our country and the sooner you are escorted from office, the better it will be for our nation!

Sincerely,

Kaloustian David

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

It is telling that the Republican Party is willing to do so much to restrict the voting rights of Americans, and that no such unconstitutional measures are ever taken by Democrats or other parties.

Sincerely,

Phil Redman

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I used to live in Kansas. I'm very familiar with Mr. Kobach's efforts to disenfranchise legitimate voters. That's one of the reasons I moved to New York.

I'm glad that state election officials, even in Kansas, have put their duty to voters above this partisan attack on voters. I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes.

Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans. I'm participating in citizen action efforts to modernize voting procedures in Albany.

The freedom to vote is the cornerstone of our democracy, and I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Diane Klempner

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Sherrill Villaverde

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Dan Wicht

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Dawn Noelle Smith Beutler

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Cathy Kogan

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Marie Cigrand

Jul 11, 2017

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

As a university professor, I am also concerned about a group that often goes overlooked in discussion of voter suppression campaigns: college students. Many attend institutions in states other than the one listed on their driver's license, therefore catching them up in ID laws and other barriers to voting. As the most educated and informed members of our nation's future, we should make it as easy for them to vote as possible.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Meghan Mettler

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Stacy Karacostas

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned by the Pence-Kobach commission's recent request for private information about every voter in the country. I see it as part of long tradition, going back to the Jim Crow-era, of efforts to suppress the votes of racial and ethnic minorities. It is the ugliest part of our history and it must stop now!

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Richard Johnson

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Bruce Wasem

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I absolutely do not think a federal list of voter roles will be safe from Russia or anyone else who may try to have those lists hacked. Keeping states rights has been a hallmark of the Republican platform. What is happening? Local control is tantamount to our democracy!

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Harriet Hirsch

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

We are supposed to be a democracy encouraging voter participation and protecting voters' private information, not some two-bit autocratic plutocracy!

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Stephen & Barbara Cobb

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Julie Archer

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

John Weston

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Suppressing voter rights is the most heinous crime against Americans as a nation you could do. It is a crime against the Constitution. It is a crime against the very foundation of our democracy. And attempting to gather voter information from each state is that first, illegal, step in the voter suppression process. Desist now.

Sincerely,

Portia Coyne

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

Wow! Voting. The exact thing this democracy is based on. Should be free from any suppression, right?

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Penny Blubaugh

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Michelle Maloney

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Cathy Mendola

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Rebecca Barbarino

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

Once again Trump has shown his disregard for democratic processes by instituting the Pence-Kobach commission in an attempt to push voting restrictions and request private information about every voter in the country. This is clearly another example of Trumps narcissistic attempt to justify his loss of the popular vote in the election. Pence is as usual on board and continues to lie to the American people and reflect his total lack of integrity!

I fully supported state election officials who have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Greg Hinman

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Bob Thomas

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Mary Lang

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Laura Rose-Fortmueller

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Barbara Hargrove

Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

I would suggest we adopt a vote-by-mail system where every eligible voter receives a ballot that is returned by mail and is then counted. This would eliminate the voter ID issue at the polling place, where you claim fraud takes place.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Barry Linan

Jul 11, 2017

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

When trump claimed without evidence that "millions voted illegally" in last year's election, he was roundly criticized by experts and election officials from both parties for falsely undermining faith in our democracy.

But rather than back down on his outlandish assertion, Trump doubled down -- ordering Vice President Mike Pence and Kansas Secretary of State Kris Kobach to "investigate" our elections -- both of whom have backed Trump's irresponsible and incorrect claim that millions illegally voted in 2016.

Kobach in particular has a notorious history of voter suppression, like pushing a shady "cross-check" program -- a dubious tactic he says is to find illegal voters, but has flagged false positives in the past, and disenfranchised too many legitimate, eligible voters.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

I stand with everyone of the governors in this country who are saying "NO" to this request to suppress votes!

Sincerely,

cheryl whittaker

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

R. Briscoe

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Mary Quigley

Jul 11, 2017

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I've sent VT's secretary of state instructions to defy the bullies in Washington, and advise all US citizens to have their state do the same. Pence-Kobach would not exist -if not for our illegitimate president- ergo, the commission is also illegitimate. The request for voter information, private fields or public, **MUST BE DENIED!** Otherwise, this could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be and would be the first of many attempts to push nationwide voting restrictions. The abuse of such a data base can not be more so emphasized as to the unscrupulous record of Kobach record and with the hyphenated name of Pence to justify credibility.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Michael Walsh

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Mariebessie Crawford

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Diane Ransom

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Harry Richey

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Taya Barnett

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Karen Johnson

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

M.Sharon Gambocorto

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

David Fimple

We cannot allow Trump's incredibly narcissistic whims to try to prove there were millions of undocumented votes cast last election. The most fraud ever perpetrated against the American people will keep happening while Trump occupies White House. Thanks for standing up to Tyrant Trump and his incredibly unqualified and lying gang he has placed in his cabinet and administration.

Sincerely,

Cecilia Ramirez

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Kristina Germano

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Linda Henderson

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I am all for ensuring fair elections, one vote per registered voter. However, Mr. Pence and Mr. Kobach, it is obvious you are trying to support Mr. Trump's claims that 3 to 5 million immigrants voted illegally in 2016. Your evidence so far points to the improper registration of 12 dead people without verifying if they actually voted. This is an absurd basis on which to support the Mr. Trump's paranoid fantasies. Your commission undermines America, yourselves, the office of the presidency, and the belief that America has high moral and ethical character. Please try to find some self respect and respect for honest Americans who used to believe America was great -- until now.

Sincerely,

Melissa Dobbins

Jul 11, 2017

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Heather Carpenter

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Nancy Weiss

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions. I am both a Republican (former local committee chairperson) and member of The League of Women Voters), and I believe strongly that the President's Commission on Election Integrity is a waste of time, energy and funds that should be devoted to the many real challenges our country is facing.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans. When we offer real solutions to real problems we as a party and as a country have no need to hide behind the claim of election fraud. Our state officials do an excellent job of maintaining election integrity. We do not need this commission to tell us that.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Karen Boujoukos

Dear Presidential Advisory Commission on Election Integrity,

As a taxpayer and voting citizen I am deeply disturbed by this commission and it's alleged mission.

There is no voter fraud proof provided by either party or outside sources.

Stop wasting tax dollars on this pathetically obvious plan to create voter fraud, and data mine private information, in the name of preventing voter fraud.

Sincerely,

Elizabeth Dunn

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions and is a covert attempt by the President to legitimize his claims of an overwhelming majority vote when he, in fact, lost by a huge margin.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Joanne Osmun-Jerez

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

William Anderson

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Patricia Glowinski

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Johnette Peruzzi

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Marcia Dost

I find it unbelievable that Donald Trump cannot accept that he lost the popular vote, acting like a spoiled, petulant child that he wants to make what he BELIEVES as fact. That is unacceptable for someone who is supposed to be the leader of the democratic nation that we have always been. Instead, he is behaving like a third-world dictator. That is NOT an American value!

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Cindy Stichel

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Dianne Garcia

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Pamela Wallace

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Earl Egdall

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I am outraged that the Trump administration is spending our tax dollars (Trump doesn't care since he doesn't pay taxes himself - coward and cheap thug) on this bogus commission with its mission to intimidate voters. In Wisconsin the Green Party solicited donations for a recount and there was NO VOTER FRAUD. So stop wasting tax payers' dollars on this and stop intimidating voters. This is unethical.

Sincerely,

Henny Regnier

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Doug Geis

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Mary Armstrong

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Lynn Cornish

I have done voting registration for my state and have friends who have been poll judges during elections. I know how secure our voting process is and I know this is a totally bogus claim that there were illegal votes during the past election. Stop this stupidity.

Sincerely,

Susan Conley

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

The Pence-Kobach Commission's request for private information about every voter in the country is another bogus attempt to solve a problem that doesn't exist to demonstrate that a failing Republican administration is trying to look relevant. I know it's another attempt to suppress or exclude voters who don't support reactionary social and economic policies.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters. The American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy. Respect it.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Lynn Montgomery

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Alice Pasqualetti

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I have voted in every local, state and federal election beginning with the California primary of June 1968 and I currently cast my ballot independently, without sighted assistance using an accessible voting machine.

No one or nothing will prevent me from voting; not blindness and definitely not you??!

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

Violation of Constitutional voting powers conferred to the states cannot be violated without an Amendment. Given the ridiculous claims of Trump that stem from delusion or cynicism funding this "inquisition" should be curtailed. Trump lost the election by popular vote and won as a consequence of gerrymander. Trying to re-write history is anti-democracy and anti-American. This entire kerfuffle is an attempt to misdirect Trump supporters from the expanding Russian investigations.

Sincerely,

Joseph Huben

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Mildred Roland

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Ann Droll

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Jan L Wilson

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Time after time it has been proven that voter fraud is not an issue in our elections. But it is very apparent that voter suppression was done during our last Presidential Election and the state GOP are trying to make it even harder to register and vote. Changing location of voting stations at the last minute, moving the locations so it is harder for people without cars to reach, limiting the number of days for early voting, and restricting the type of ID that is permitted in order to get registered are all games that the GOP use in order to suppress voting.

President Trump is not the only President who won the delegates but not the popular vote. This does not mean voter fraud. This means our voting for President is still working according to what our founding fathers created in our Constitution. Amendments to keep up with the changes in society have been added, but nowhere does it say that knowing how a person's votes should be public knowledge. There is no reason to want to know how a person voted and where they live except to try to make it more difficult for people not voting for your ticket.

Sincerely,

Susan Granas

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

karen mccullough

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Bill Lange

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

Shame on you! I'm deeply concerned regarding the Pence-Kobach commission's recent request for private information about every voter in the country. This country was founded on democracy, and here you are challenging that very fabric because Mr. Trump's feelings were hurt that he didn't win the popular vote. And let's be honest, that's absolutely what this is about.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote. I imagine they are as disgusted by this blatant abuse of power and total waste of time.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Sue Arteaga

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Kathryn Kowalczyk

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions. Historically we've stood before the world as the land of the free, and the chief right that protected that identity was freedom to choose those who represent us in government. As a democracy, each of us must have the right to vote our conscience freely, without intimidation.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Laurie Bach

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions. This commission was created based on a claim that has no evidence to support it.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans. We also need to take steps to make our election system resistant to tampering and hacking.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Luis Lozano

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm not fooled by this commission. We don't need such a thing, because voter fraud is a tiny problem.

The commission is a dishonest waste of money.

What we do need is a national standard for voting technology and procedure, to make it secure from interference.

Sincerely,

Mark Edelman

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

Your thinly-disguised efforts to suppress the vote are absolutely horrifying. This is the way a fascist state behaves; and with this "so-called" commission, gagging of the press, demeaning judges and the Intelligence community, we are becoming an authoritarian regime. You are a blight on the honor and democratic traditions of this nation.

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Susan Weinstein

Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

Vice President Pence and that neo-Nazis Kobach are apparently an integral part of a treasonous conspiracy. The data they hope to collect on 200 million Americans will be downloaded to both the RNC mainframe and Putin's Kremlin mainframe. Congress is being played and betrayed.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions. It also opens up every American citizen to IDENTITY THEFT by the Russian hackers!

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote. This commission is a WASTE of TAXPAYER MONEY. Many studies have shown that voter fraud occurs at a rate of about 0.0003%.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Bob Helsel

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

The American people will not be intimidated by the Pence-Kobach Commission's attempts at voter suppression. We intend to continue exercising our freedom to vote.

I am concerned that the Commission's recent request for private information on every voter in the country is the first of many attempts to push nationwide voting restrictions. While the New Hampshire Secretary of State wants to hand over these data to the commission--an action that I as a NH citizen oppose--I am glad that many state election officials have put their duty to their citizens above this partisan attack on voters.

The best way to uphold the integrity of our elections is by making sure that every eligible voter can vote and have their vote counted as cast rather than using false claims about illegal voting to suppress votes. Modernizing our elections to allow such things as automatic voter registration, Election Day voter registration, and early voting are important steps toward lowering the barriers to participation in our electoral process.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes to protect it. The Commission must not be allowed to intimidate any eligible American from exercising the freedom to vote.

Sincerely,

Kevin Clark

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Marion Menna

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Wanda Villet

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I understand that "most" of the information is open to the public. If trump wants all that information on each and every citizen of the USA, he should use his "Twitter Time" digging it up. I personally do NOT want trump creating a Federal Government Dossier on every US citizen. There should be a national standard to register as a voter in each state and a law that all the states have to get together to make comparisons of voters names at least 4 months before a presidential election. But, the info should stay only WITHIN each and every state's government. With all that info in trump's hands, I wouldn't be surprised to learn of my death when I go to vote in the next presidential election!!

Sincerely,

Nirvana Nieuwejaar

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Helen Bidwell

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Eric Steele

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm very deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions. This information should remain decentralized more so now than ever, in light of Russian attempts to influence elections in this country.

While I'm glad that state election officials have put their duty to voters above this partisan attack on voters, please understand that the American people are not fooled by this phony task force and will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Margaret Maher

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Elizabeth Hart

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

PAMELA TAYLOR

Presidential Advisory Commission on Election Integrity

Dear Presidential Advisory Commission on Election Integrity,

I'm deeply concerned that the Pence-Kobach commission's recent request for private information about every voter in the country could be the first of many attempts to push nationwide voting restrictions.

I'm glad that state election officials have put their duty to voters above this partisan attack on voters, and I want you to know that the American people will not be intimidated out of exercising our freedom to vote.

The best way to uphold the integrity of our elections is by making sure every eligible voter can vote and have their vote counted as cast -- not using false claims about illegal voting to suppress votes. Modernizing our elections to allow things like automatic voter registration, Election Day voter registration, and early voting are important steps to lowering the barriers to participation for all Americans.

The freedom to vote is the cornerstone of our democracy, and I know that We The People will do whatever it takes, together, to protect it. I will not let this Commission intimidate me or any other eligible American from exercising the freedom to vote.

Sincerely,

Lisa Fiordimondo
